

ECOPOTS

DURABILITY BY DESIGN

Why Ecopots?

A minimalist design with sleek, elegant lines, where functionality and aesthetics come together in perfect harmony. Each pot is made from high-quality recycled materials, hand-finished, and fully recyclable. Ecopots is a Belgian brand with durability at its core. Welcome to our world.

ECOPOTS
DURABILITY BY DESIGN

10-year warranty!

With Ecopots you get long-lasting quality. We design, produce and sell pots made from recycled materials, ensuring they are sturdy, beautiful and stylish. Not just today, but also in the future. That is why we offer a 10-year warranty covering manufacturing defects, UV discolouration and frost damage.

The only pots you can repair

Each Ecopots is unique because of its hand-made finish. The material's natural look and feel ensure that it blends in beautifully in any interior or outdoor setting. Is your pot scratched or slightly damaged? Use the Ecopots Repair Sponge to refinish it. Most scratches and stains can be removed in seconds.

Recycled based composite

A pot or planter has to accompany your plant for many years. That is why we demand the highest quality and only work with materials that guarantee a long-lasting durability. Our composite formula of high quality recycled materials makes the pot not only strong and durable, but also very light. Ecopot is UV-resistant, shatterproof and resistant to temperature fluctuations, making them ideal for both indoor and outdoor use.

Timeless colour and design

At Ecopots, we create products that are not bound by fleeting trends. We believe in timeless beauty. Our designs follow the Scandinavian design philosophy, which aims to create a calm and orderly environment as a counterbalance to our often busy and stressful lives. This is reflected in sleek, simple, and minimalist lines, along with the use of natural colours.

Healthy & happy plants

At Ecopots, we let the science speak for itself. Independent research, conducted in a certified research station in Belgium, has shown that the roots and foliage of plants that grow in an Ecopots are clearly better developed. The result? Healthy, beautiful plants that grow easily and stay in top condition for longer. We use insights from experts and technical tests and remain committed to providing the most optimal growing conditions for plants.

Innovative pots and planters

At Ecopots, beauty, form and function are inextricably linked. As a leading brand in the world of flowerpots and planters, we always look for innovations that make our products more beautiful and practical. With solutions such as hidden suspension, integrated wheels, optimal space utilization and carefree watering, our pots are always designed for maximum user-friendliness.
